Introduction

We are deeply committed to maintaining a sustainable and environmentally responsible approach in all aspects of our operations. Central to this commitment is our robust policy addressing local and accidental pollution.

We have implemented stringent measures to prevent, manage, and mitigate accidental and safeguarding the health and well-being of communities and ecosystems and local pollution incidents.

We will ensure that our business activities prioritize the protection of water sources, land areas, human health, and the preservation of vulnerable species and their habitats.

Scope

The scope of the Local and Accidental Pollution Policy at Himadri Specialty Chemicals Limited encompasses all aspects of our operations, including production processes, storage facilities, transportation, waste management, and the activities of employees and contractors.

Objective

The following are the objectives of the policy:

- i) Prioritize responsible disposal practices in accordance with local and national guidelines
- ii) Implement stringent measures in place to contain any accidental leakage or emissions incidents
- iii) Perform regular preventative maintenance activities and monitoring to avoid/repair leaks to lubrication systems, emission systems, tanks, pipes cooling operations, cleaning systems, wastewater plants etc.
- iv) Perform regular risk assessments to determine areas of the operation where accidental or local pollution could occur. Document procedures for all possible
