

Report on Baseline Assessment of Sustainable Procurement of Himadri Speciality Chemicals Ltd. Based on ISO 20400:2017

Scope: Baseline Assessment of M/s. HSCL Procurement & Supply Chain to determine “As-Is” scenario and evaluate the Supply Chain ESG Risks to determine subsequent Supply Chain ESG strategy.

Executive Summary:

Sustainable procurement is procurement that has the most positive environmental, social and economic impacts possible across the entire life cycle and that strives to minimize adverse impacts.

Seven core subjects of Sustainable Procurement are

1. Human Rights
2. Labour Practices
3. The Environment
4. Fair Operating Practices
5. Consumer Issues
6. Community Involvement & Development

Himadri Speciality Chemicals Limited, known as HSCL, has embarked upon journey on implementation of Sustainable Procurement and integrating the same into the business of the organization.

HSCL is committed to its Sustainability journey and commitments are expressed through their Sustainability Report published for FY 2022-2023.
