

JETEX 107 Speciality Carbon Black

Product Description

JETEX 107 is an easy to disperse UV black used primarily for application where high covering power and long-term weatherability are the main performance criteria. Excellent cleanliness and ease of dispersion make it particularly suitable for extrusion applications where surface smoothness is desired.

Product Features

- Offers good UV protection and high opacity when properly dispersed in polymer.
- Excellent pigmentation characteristics providing good colour in both extruded and moulded parts.
- Morphology designed to provide good film extrudability.
- Suitable for use in articles intended to come in food contact as per Commission Regulation (EU) No 10/2011.

Applications

- Extruded parts for extended outdoor use including agricultural films and geosynthetics.
- Other extruded and/or moulded parts requiring UV protection or black color such as pipes and plastic parts.
